Demonstrations will be given by One Stop Flooring, Mt. Vernon TV and Appliance, Invisible Fence, Insight Training and Window Source, Pruitt said.

One of the highlights of the Home Show this year is the Mt. Vernon Township High School RoboRams, which will be presenting a Mindstorm Lego table for the public.

A special tourism publication also touts three reasons to attend the show, Pruitt said.

"It's the perfect destination for a busy person," Pruitt shared. "One stop shopping helps our attendees find

everything under one roof from appliances to home loans and everything in between."

She also said the event is great for the do-it-yourselfer. Quick advice is available from stage presentations and project assistance is offered by exhibitors to those in attendance.

"The Home Show has rounded up some of the best local vendors to showcase the latest innovations in design and home technology," Pruitt added. "(You can) use these resources to make your house your dream home."
