

Taking flight

Submitted photo

Tanner Snyder, right, of Vincennes, Ind., achieved his private pilot license on Thursday in his family's Cessna 150 Taildragger. It was also Snyder's 17th birthday — the first day an aspiring pilot is eligible to take his oral and practical examinations. Team MVN based FAA examiner Leland Widick, left, is shown congratulating the new pilot. Tanner took his first solo flight on his 16th birthday on the first day of eligibility.
